To Whom It May Concern

I want to introduce Mr Alireza Kabourani as an applicant for study on spatio-temporal models, both in developing methodology and applications. I came to know her as an MSc student in the Department of Data Science at Tarbiat Modares University, where I taught him a course in the Analysis of Spatial and Spatio-Temporal Data. He had an excellent ability to understand the material and examine the logical relationship between them. He had good skills in preparing programming code with R software for data analysis. These abilities present him potential to undertake research. He also had a pleasant personality and behaved friendly with fellow students and colleagues. I rate him high and successful.

I confidently recommend him as a researcher candidate and would gladly provide any required information.

Sincerely Yours

A handwritten signature in dark ink, appearing to read "Mohammadzadeh", written in a cursive style.

Professor Mohsen Mohammadzadeh
