It is my pleasure to provide this letter of recommendation for Mr. Alireza Kabourani for admission to your PhD fellowship program. Alireza is one of my M.Sc. students starting from 2021. He has successfully completed Multivariate Analysis and seminar with me while being among my top students in these courses.

Alireza is a hard working student with excellent motivation along with good experience. His interest in applied statistics accompanied with good communication skills and ability to do team work indicate that he is an enthusiastic, excellent and gifted student and also a researcher to complete higher degree in statistics. Moreover, Alireza has also excellent statistical thought and some teaching experience.

I believe he has enough capacity and persuasion to do a fine job in his Ph.D. program. Hence, I would highly recommend him for admission to your department. I will be happy to provide you any further information if required.

Sincerely Yours

Mousa Golalizadeh

M. Golali-Zadeh

Associate Professor in Statistics
